Summary

I am an aspiring SOC Analyst with a robust foundation in cybersecurity, compliance, and hands-on experience in security monitoring, threat detection, and incident response. My skills have been honed through practical work in a self-built Active Directory Lab and SIEM Lab, where I focused on log analysis, threat hunting, and implementing mitigation strategies. I also have experience ensuring compliance with security standards and policies. My background is further strengthened by participation in SkillsUSA at the State Level for Cybersecurity, where I conducted a Vulnerability Assessment and tackled a CTF challenge centered on Cryptography and Steganography. Additionally, I've engaged in various CTF challenges, sharpening my ability to identify vulnerabilities and solve complex security problems. I am eager to apply my knowledge, compliance expertise, and hands-on experience to a dynamic security operations center.

Experience

FBLA

Future Business Leaders of America, Inc. (FBLA)

2022 - Present (2 years)

Computer Repair Technician

George and Bob's Computer Service

Jul 2023 - Aug 2023 (2 months)

Education

Somerset County Technology Center
