COMMUNITY & LEADERSHIP

FBLA State Qualifier for Cybersecurity

Future Business Leaders of America

November 2022 – Present

Pennsylvania

- Placed 10th in the state for the Cybersecurity objective test, the test involved basic security concepts, security controls, attack vectors, and encryption methods
- Placed 2nd in the state for Website Coding and Development I had to create a website for a business and meet rubric guidelines.

SkillsUSA Competitor

SkillsUSA

November 2022 – Present

Pennsylvania

- Placed 2nd at the district competition for Inter-networking I had to create different types of Ethernet cables, make a keystone jack, and create a P2P connection
- Was a state competitor for cybersecurity, We took the Test Out Security Pro Exam, did a Vulnerability assessment, and a CTF challenge involving Cryptography, brute forcing and Web Vulnerabilities

PROJECTS

Implement Mesh Technology in my home |

June 2021 – Present

- Had slow network speeds and a requirement for quick reliable coverage without going over budget, so I purchased a TP-Link Deco set and configured it to suit my household needs and segment my network.

OPNSense Firewall | *OPNSense Software*

August 2024 – Present

- Configured and maintained my own OPNSense firewall to mitigate DoS attacks and any network scanning attempts

Configuring my Own Domain | *Windows Server 2022*

August 2024 – Present

- Configured and maintained my own Domain Controller and Clients as well as Group Policy to better understand Active Directory
